PROFILE

As a junior professional, I have expertise in various languages and frameworks essential for successful web development. I am particularly passionate about back-end development and building web applications, and I am enthusiastic about enhancing my skills in these areas. With a strong aptitude for teamwork, I enjoy collaborating with others and am open to taking on leadership roles. If you're looking for a motivated and dedicated team player with a passion for technology, then I am the ideal candidate for you.

SKILLS

SQLAlchemy	AWS
C++	Git
Python	Flask
JSON	Data Structures
HTML5	Object oriented programming
CSS3	Bootstrap
